ABOUT US

Always step forward and make a difference for better services

We are dedicated problem solvers, innovators, and partners in progress. With deep roots in Texas, our company embodies the spirit of resilience, hard work, and innovation. We leverage cutting-edge technology and sustainable practices to develop coatings that meet and exceed industry standards. Our team comprises passionate individuals driven by a shared vision of excellence and a commitment to customer satisfaction. Whether it's protecting infrastructure, enhancing aesthetics, or improving functionality, we are here to provide tailored solutions that meet the unique needs of our clients while contributing to a brighter, more sustainable future.

OUR SERVICE

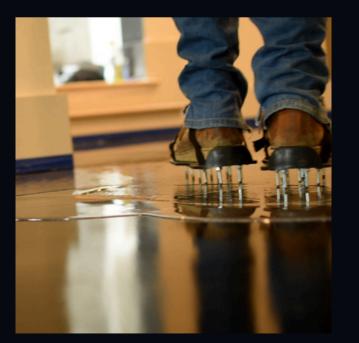

We provide a one-stop service for you. Reducing difficulty and saving your time is our goal.

Industrial Coatings

We handle industrial coatings for residential and commercial applications

Private Label

We offer product labeling under your own brand.

Support

Experience in providing product advice across various projects

POLYASPARTIC 85

CLEAR

Polyaspartic 85 stands as a versatile twocomponent solution, featuring a balanced 1:1 ratio. This product serves the dual purpose of being a colored basecoat and a crystal-clear topcoat. It excels in rapid turnaround and swift curing under standard conditions, typically becoming tack-free in approximately 120 minutes.

MOISTURE VAPOR BARRIER

CLEAR

Is a transparent two-component epoxy, comprising 100% solids with a mild scent and low viscosity. It is specially designed as a moisture barrier coating for treating both new and existing concrete floors exhibiting elevated moisture levels and high ph.

POLYUREA 95

TAN - LIGHT GRAY

Is a two-component, 95 % solids, VOC compliant, polyurea hybrid that was developed as a primer/basecoat for a variety of coating systems. It provides outstanding adhesion on a large number of substrates and performs well in a wide range of temperature conditions.

CRACK REPAIR

DARK GRAY

Is two parts, high penetration, fast setting, hybrid polyurea for repairing and re-building damaged concrete. The product is a 1:1 ratio, easy to mix system that is 98 % solids and VOC compliant. The PPC CRACK REPAIR FAST can be used to set anchor bolts, repair damaged control joints, fill spalling, and rebuild vertical curbing and steps.

KRETE TOPCOAT

LIGHT GRAY - GRAY - CREAM - GREEN -YELLOW - RED

A 4-part polyurethane coating/grout for use with PPC KRETE URETHANE SLURRY SL or PPC KRETE Coving Mortar polyurethane flooring systems.

KRETE URETHANE SLURRY SL

LIGHT GRAY - GRAY - CREAM - GREEN -YELLOW - RED

Is a four components polyurethane self-level system. The standard thickness for PPC KRETE URETHANE SLURRY SL is between 1/8" to 3/16". Attractive smooth matt colored floor finish.

SOLVENTS

ACETONE

This chemical is a solvent that mixes well with water and evaporates quickly, making it well-suited for many household and manufacturing uses.

XYLENE - XYLOL

Can be used in place of Toluene to thin specified oil-based paint, lacquer, varnish, epoxy, adhesives and synthetic enamels when a slower rate of evaporation is desired. Xylene will also remove certain adhesives. Its an excellent clean-up solvent for tools and equipment immediately after use.

UNIVERSAL COLOR PACK

WHITE - BLACK - TAN -LIGHT GRAY -MEDIUM GRAY - DARK GREY

Coloring pigment paste is designed to tint solvent-borne polyvinyl chloride, polyurethane, epoxide, organic-silicon, pentaerythritol modified phtalic resin, nitrocellulose and other system. (request to manufacturer for materials compatibility tables)
